This means you and any person whom garments are to be made for in your order, must be present for figure measurements as well as the sample garment fitting. Ankhsemble is not liable, if the fit of your completed garment is inaccurate, as a result of your absence or tardiness for the very important figure measuring and fittings. The availability of the clients accurate figure measurements and a fit check are crucial to accuracy of the custom fit.

We are Not responsible for delivery of garments unless included on order form terms. We are also not responsible for the accuracy and or performance of measurements and/or fabrics not provided or purchased by us.

We do pre-clean our fabrics with average household detergent. Please perform an allergy check on your skin in small areas before wearing any garment.

*Figure measurements(informally called vital statistics) are a common method of specifying body proportions for the purpose of fitting clothes. They may be partial or full.

*A fitting involves the client physically trying on the finished garment/s, or a sample garment matching the basic structure, in an inexpensive material to test overall fit. It provides the best possibility of an accurate fit as well as any minor last minute adjustments (ex. Shortening a hem).

**\$4.50 Measurements Fee per order can be waived if you had figure measurements taking with CBC or an approved Sewing Professional or Company.
